

DIGITAL FOUNDATIONS FOR WORK AND LIFE

Oct. 15-Nov. 11 6-7:30 pm

READY TO BUILD YOUR CONFIDENCE WITH TECHNOLOGY?

Join us for a series of five free hands-on classes designed for adult learners who want to strengthen their digital skills for daily life, job searching, and career growth. Each session is beginner-friendly, interactive, and taught by experienced instructors from Technology for Tomorrow who make learning practical and accessible.

INTRODUCTION TO COMPUTERS

Participants will learn basic computer skills, including navigating the desktop, using applications, and managing files.

Oct. 15

INTRO TO THE INTERNET & WEB BROWSING

Participants will learn how to use web browsers and search engines to navigate the internet safely and effectively.

Oct. 22

UNDERSTANDING SMARTPHONES

Participants will learn the key functions of smartphones, the pros and cons and how to use them confidently in daily life.

Oct. 29

UNDERSTANDING ONLINE JOB SEARCHES

Participants will learn how to search for jobs online, use LinkedIn, upload resumes, and track applications.

Nov. 5

LINKEDIN WORKSHOP: GETTING STARTED

Participants will learn how to create a LinkedIn profile and build connections to support career growth.
